

Dear FCC-

This comment is in support of K-LOVE radio station in my local community. My husband and I listen to this radio station every day many times throughout the day. We find it extremely uplifting and encouraging to our family and our friends. There are so many listeners of this station that if it were to be displaced by a LPFM broadcaster a large part of our community would experience great loss, even sorrow. The effect would be spiritually and emotionally discouraging to our community and would be a reason to stop listening to the radio altogether since K-LOVE is the only alternative to all the other secular radio stations.

K-Love provides strength and encouragement to the community which promotes higher standards and causes the community to stand together morally and ethically. It is an underpinning of the moral fabric that every family and community needs to live well together, to love one another and to support one another. We do not want to see spiritual darkness increase in our community; we do not want to see an increase in theft and crime in our community; we want to uphold solid traditional Christian values and K-LOVE supports our community on stations 88.5, 88.3, and 91.1 in accomplishing this. Thank you for hearing our voice.
